- English (good)

PROFILE

I am Dang Makara, a passionate frontend developer with a solid foundation in React.js, Next.js, and modern web technologies. While I am still building my expertise, I have successfully delivered projects using responsive design, user-centered interfaces, and JavaScript frameworks. I'm always eager to learn, adapt, and improve my skills, with a focus on creating clean, maintainable code. I thrive in collaborative environments and enjoy solving complex problems to deliver high-quality user experiences.

WORK EXPERIENCE

IntechDev Innovation   (MAY-16-2022) – (PRESENT)

Frontend Web Developer

- Built scalable web apps with Next.js, optimizing performance and responsive design.
- Developed PWAs with offline support, and implemented mobile-first UI using Tailwind CSS and Ant Design.
- Managed state with React Hooks and integrated APIs with RESTful. Enhanced app performance with lazy loading and SSR, ensuring SEO, accessibility, and cross-browser compatibility.

Modernize Tech Insight   (September-2021) - (May-13-2022)

Web development

- Worked on React js projects, focusing on interactive UIs, component design, and state management.
- Assisted with API integration, debugging, and performance optimization. Gained experience with Git and Agile workflows.
